CSE 579: Knowledge Representation and Reasoning

Automated Warehouse Scenario Project Part 3

Purpose

The course project will have four (4) requirements. For part 3 you will submit an individual progress report summarizing your course project progress.

Objectives

Learners will be able to:

- Summarize progress toward completing the course project.

Technology Requirements & Resources

All required downloads and documents are available in your course under the “Project Overview” page.

- CSE 579_course-project-report-kit_AAAI

Project Description

For this part you will submit an individual progress report summarizing your project and progress up to this point in the course using the CSE 579 AAAI Course Project Report Kit.

Directions

For this deliverable, you will need to use the AAAI report template in the Course Project Report Kit (see below), and provide the following information:

- Your problem statement
- A summary of the progress you've made so far, including the background work you completed
- Discussion of issues encountered and your plan for solving them
- A summary of the specific tasks you've completed to date
- A summary of the work you have yet to complete and your plan for completing it

Additional Report Requirements

Your report should be at least 1 page, at most 2 pages (2-column format meaning that there should be 4 columns maximal), including any references, and adhere to AAAI style guidelines. (Note that you cannot change the font or font size.) The project report kit includes Word and Latex templates, and you may utilize an unlimited appendix section for other materials (e.g., ASP programs).

Submission Directions for Project Deliverables

You are given a limited number of attempts to submit your best work. The number of attempts is given to anticipate any submission errors you may have in regards to properly submitting your best work within the deadline (e.g., accidentally submitting the wrong paper). It is not meant for you to receive multiple rounds of feedback and then one (1) final submission. Only your most recent submission will be assessed.

You must submit your Automated Warehouse Scenario Project Part 3 deliverable in this submission space. Learners may not email or use other means to submit any assignment or project for review, including feedback, and grading.

The Automated Warehouse Scenario Project Part 3 includes one (1) deliverable:

Progress Report: Submit your completed progress report using the CSE 579 AAAI Course Project Report Kit. This is available on the Project Overview page in your course. Your file should be named using the following format: *Your Name_CSE 579_Automated Warehouse Scenario Project Part 3. Please submit a .pdf or .doc file*

You have unlimited attempts for this assignment until the due date, however only your most recent submission will be assessed. To submit your work follow the directions below:

1. Navigate to your course and click on the "**Submission: Automated Warehouse Scenario Project Part 3**" submission space
2. Click "**Start Attempt**" in the upper right corner
3. Click "**Upload File**" and add your template pdf document
    a. Your file should be named using the following format: *CSE579_FirstnameLastname_Automated Warehouse Scenario Project Part 3_mm-dd-yy.pdf*
    b. When finished, click "**Submit Assignment**"
    c. If needed: to resubmit the assignment
        i. Click "**New Attempt**" and add your file submission again
        ii. When finished, click "**Submit Assignment**"

Evaluation

Part 3 will be manually graded. Please review the course for the evaluation rubric and details. This milestone will be worth 90 points. For project milestone 3, the plagiarism rate must not exceed 40%. If the plagiarism rate is above 40%, three points will be deducted.
